

EVOLTRIV

EvolTriv drives innovation in solar energy, electric mobility, and hands-on learning.

1. Solar Energy Solutions: Designing and implementing solar PV systems for agricultural, residential, commercial, and industrial applications, including on-grid, off-grid, hybrid, and microgrid solutions.
2. Electric Mobility Innovations: Developing and manufacturing small-scale e-bikes to promote clean, efficient, and affordable transportation alternatives.
3. Hands-On Technical Guidance: Providing students and professionals with practical experience in renewable energy, e-mobility, and IoT projects to bridge the gap between theory and real-world application.

Solar Energy Solutions

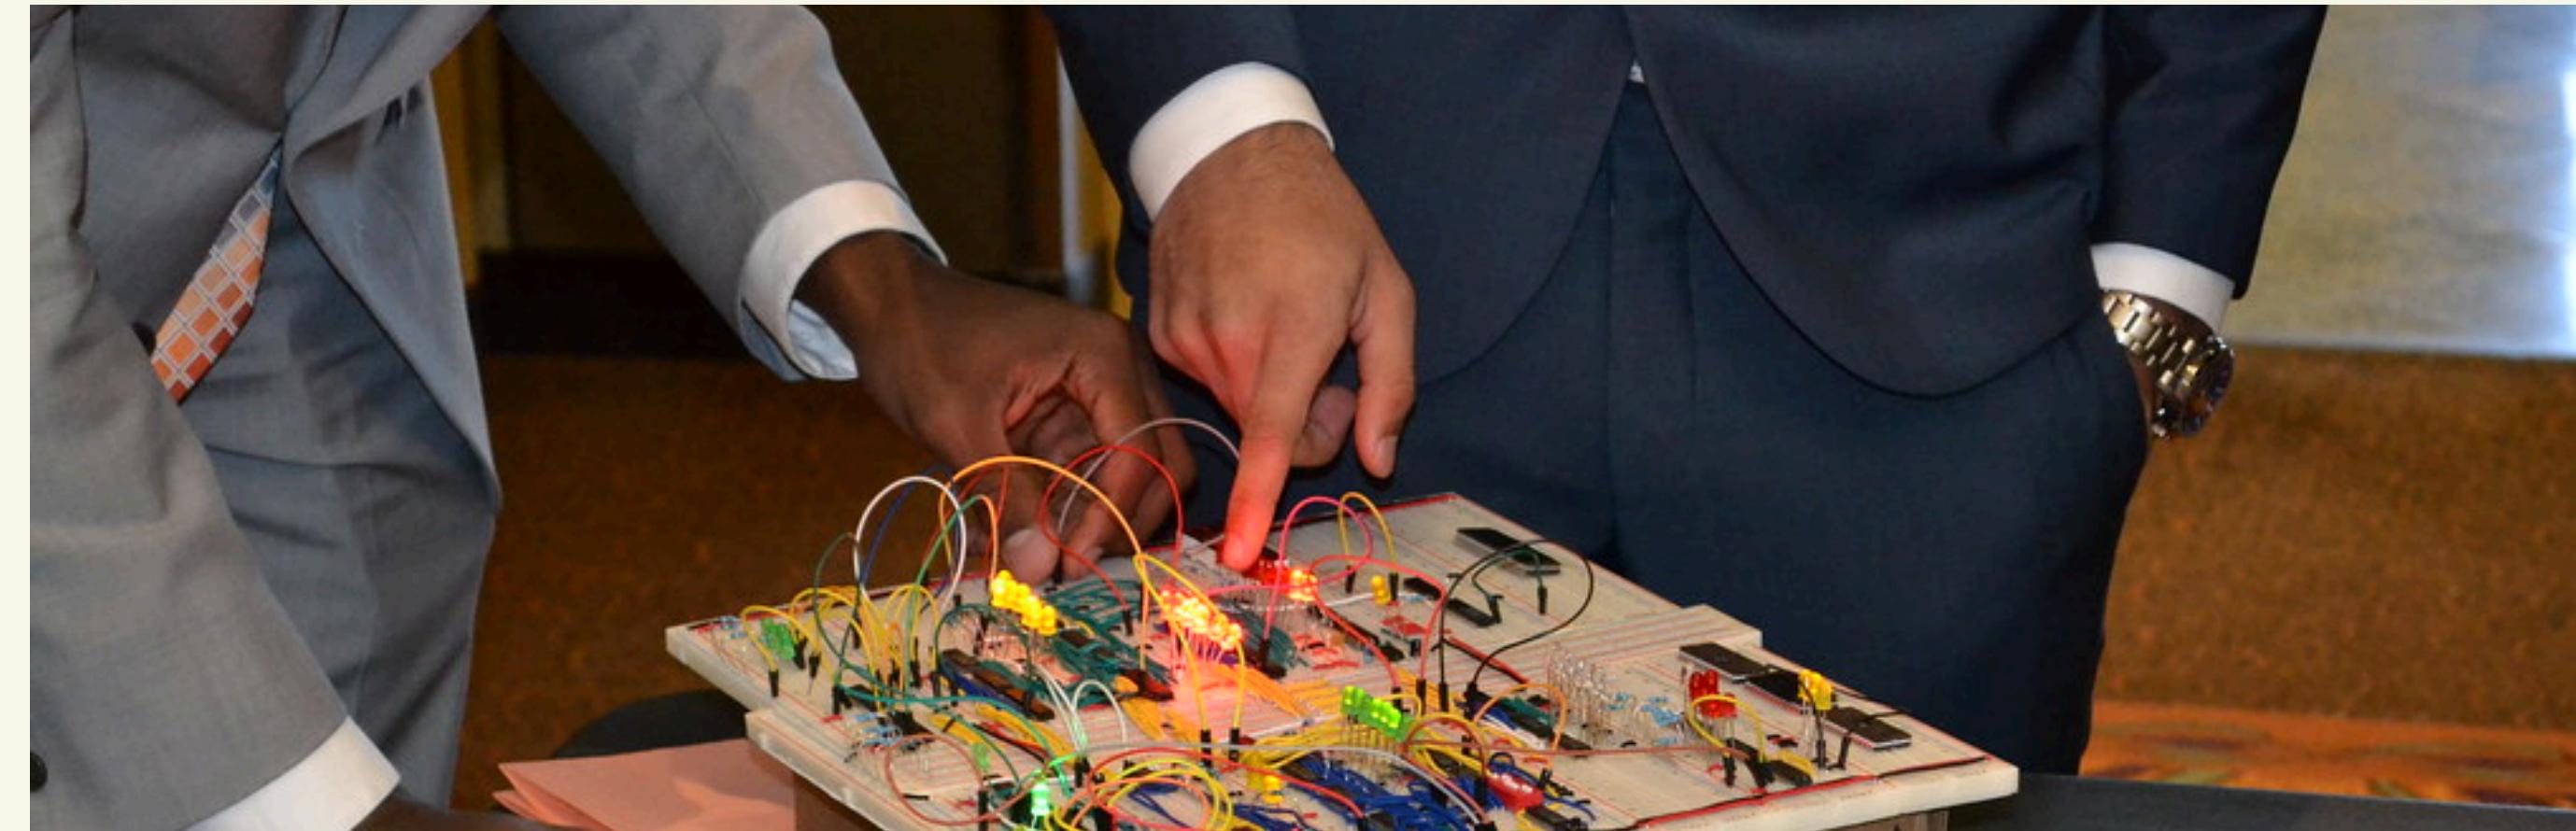

Innovative electric mobility solutions.

- Eco-friendly and energy-efficient transportation
- Lightweight, durable, and high-performance design
- Reduces reliance on fossil fuels

Empowering Students with Practical Skills

- Hands-on training in emerging technologies
- Bridging the gap between theory and practice
- Guidance in renewable energy and IoT projects

Our Mission

To drive innovation and sustainability by providing advanced solar energy solutions, clean mobility alternatives, and hands-on technical guidance, empowering individuals and businesses to build a greener future.

Our Vision

To be a leader in renewable energy and smart mobility, fostering
a world where clean energy and technology-driven learning
shape a sustainable and efficient tomorrow.
